Overview

Give your customer an easy way to get register or login to your store with social login extension. Let the customer access their account with few clicks and get rid from filing registration or login forms. It provides options to login with different social accounts which includes Facebook, Google+, Twitter, Yahoo and LinkedIn.

Why Social Login?

- ❑ Easy way to login without filling form.
- ❑ Get into account with single click.
- ❑ Many social account options to login.

Features

- 1. Multi store configuration with single installation:** Extension can be configured for each and every store created in your Magento installation.
- 2. Separate configuration option for each social account:** Each social account option has its own configuration in admin area.
- 3. Display social icon option:** Social icons for customer to login their account can be display on login page and checkout page at different positions(top, bottom, left or right).
- 4. Enable social icon according to requirement:** Each social account can be made enable or disable separately for each store.
